

About

this: P2PCOIN

Our vision is to Establish physical presence worldwide through a network of agents and partners to make technology blockchain real alternative for the unbanked.

“P2PCOIN is Designed to Meet the Needs of Consumers Who Want to Receive Services Tangibles”

P2PCOIN UK Cryptocurrency Used for Sending Money and Exchange by Local Currency, also as Investment or Value Reserve. P2PCOIN aims to facilitate access to cryptocurrencies and blockchain technology to a sector of the population that is currently unaware of these advances.

To achieve that goal, the company offers the public the opportunity to buy cryptocurrencies for cash, both in its physical branch and through the online platform, allowing users to choose how they conduct their transactions with criptodivisas. The exchange house supports a variety of criptomonedas, such as Bitcoin, ethereum, ZCash, litecoin ...

Add to this the ability to make transactions from the phone through adds APP , designed to receive, store, convert, and transfer spending as much money as crypto trust with the security offered by the blockchain technology.

Earn Money With P2PCOIN

Set up your Franchise Exchange House.

As an Independent Change Agent.
